

The Creed of Nicaea (325)

The Status Quaestionis and the Neglected Topics

edited by Alberto Melloni and Costanza Bianchi

DESCRIPTION:

This volume, the outcome of the first international conference held in Istanbul in December 2022 and promoted by the Fondazione per le scienze religiose, delves deeply into the Council's historical significance, particularly its role in shaping the Nicene Creed. The different contributions meticulously examine the Creed's development and its crucial role in defining Christian doctrine. Fresh perspectives are applied to understudied aspects of the Creed, such as its reception in different regions or its influence on theological debates. By charting new paths for future research, this volume promises to be a valuable resource for scholars and anyone interested in the enduring legacy of the Council of Nicaea and its creed.
